* The data source: Cluster partners, UNOCHA and UNRWA.

* Figures of children (>18, not only school-aged children) casualties are based on MoH as in 14th of OCT.

* The information presented in this report is based on initial data and has not been verified by the Education Cluster (EC) due to the security situation.

* The EC has activated the Education Cluster Assessment Team (ECAT) and put it on standby for deployment to verify damages as soon as the situation allows.

* Different in the number of affected schools and affected building is due to the double shifting system.

* Building of the Directorate of Education in Rafah Governorate sustained minor damage (not counted in this report).
