

Raising the standard of medical care for Palestinians through training and education

Introducing GEM - Empowering Medical Students in Gaza through Education

We're excited to introduce the "GEM" initiative, dedicated to supporting medical students in Gaza through Gaza Educate Medics. It reflects our dedication to fostering positive change in the medical community.

Empowering Tomorrow's Leaders

Fostering medical education for undergraduates and postgraduates. Fostering collaboration, research, and strategic partnerships for optimized healthcare.

SUPPORT MEDICAL EDUCATION IN GAZA

2,500 medical students in Gaza have had their education interrupted.

PalMed Academy launched **GEM Scheme** to mobilize the resources needed to help students **resume their education**.

Please **donate** whatever you can.

Consider committing to a **monthly donation** to ensure the sustainability of this program!
